

Intro: MetaDeck

MetaDeck redefines your trading desk with unparalleled control and precision. Our MetaDeck is a physical trading device comprised of 15 buttons. Allowing users to buy, sell and execute custom functions designed to suit the specific needs of a wide variety of crypto traders. Effortlessly execute trades with a single touch. Instant execution, customizable controls, comprehensive analytics.

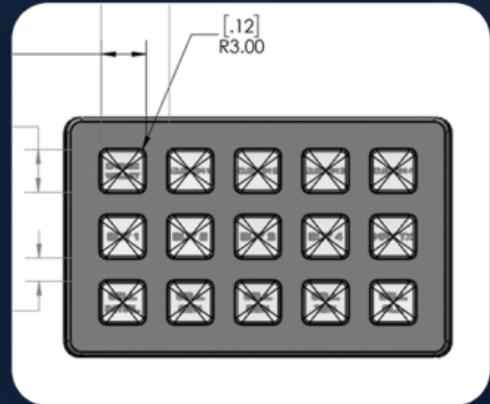

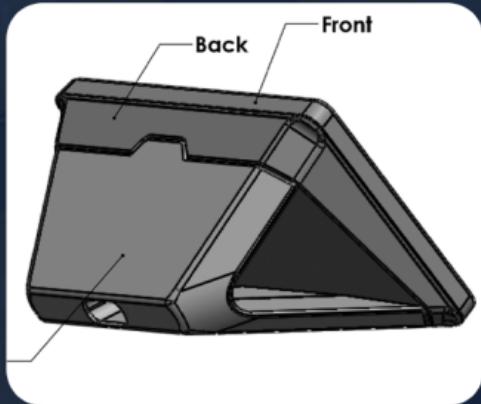

Meta Deck saves you time
so you can Make More Money

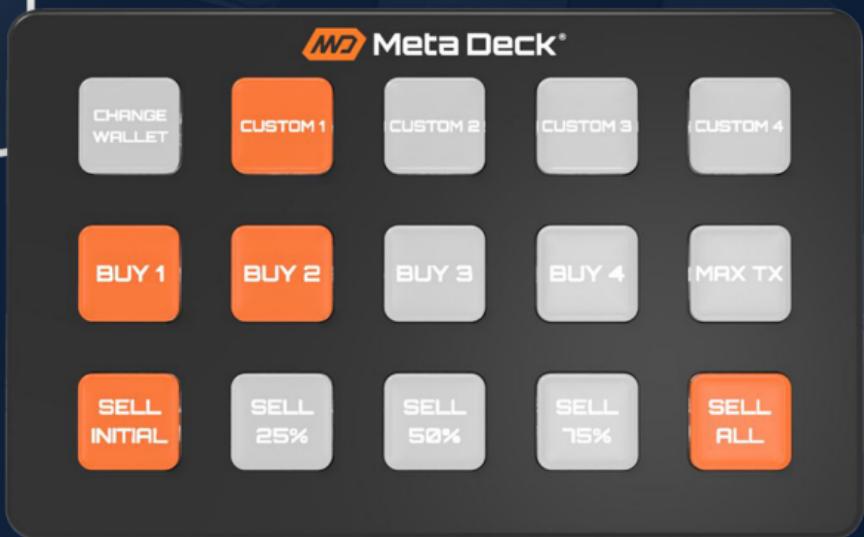

The Ultimate Trading Companion

MetaDeck is proud to be leading the development of cutting edge hardware and software technology, the first of its kind in the crypto trading field. Designed on a proven and effective trading hardware business model in other financial industries, MetaDeck is the first physical trading terminal integrated into a wide variety of centralised and decentralised trading platforms.

Fully Customizable

Customisable Controls, tailor your MetaDeck with personalised button configurations that fits your trading strategy. Each device is fitted with 4 custom buttons that allow users to set specific parameters relevant to functions that they desire to execute on a regular basis.

MetaDeck Mission Objective

MetaDeck's innovative physical trading terminal is changing the face of crypto trading. MetaDeck is designed exclusively for cryptocurrency traders, with 15 unique buttons that allow for quick and efficient buy, sell, and custom function executions. The MetaDeck enables traders to navigate the turbulent cryptocurrency markets with ease, giving them a competitive advantage.

Market Potential

MetaDeck stands out as the first physical trading terminal tailored for the crypto market, an innovation that sets it apart from existing solutions. Current DEX trading platforms are often slow and cumbersome, and trading bots can be challenging to use for novices in the crypto space. MetaDeck addresses these pain points by offering a user-friendly, efficient, and enjoyable trading experience.

Our goal is not only to enhance the trading experience but also to provide traders with the tools they need to outperform market competitors. By delivering robust analytics and PNLs, MetaDeck empowers users to refine their strategies and achieve their trading potential.

Competitive Advantage

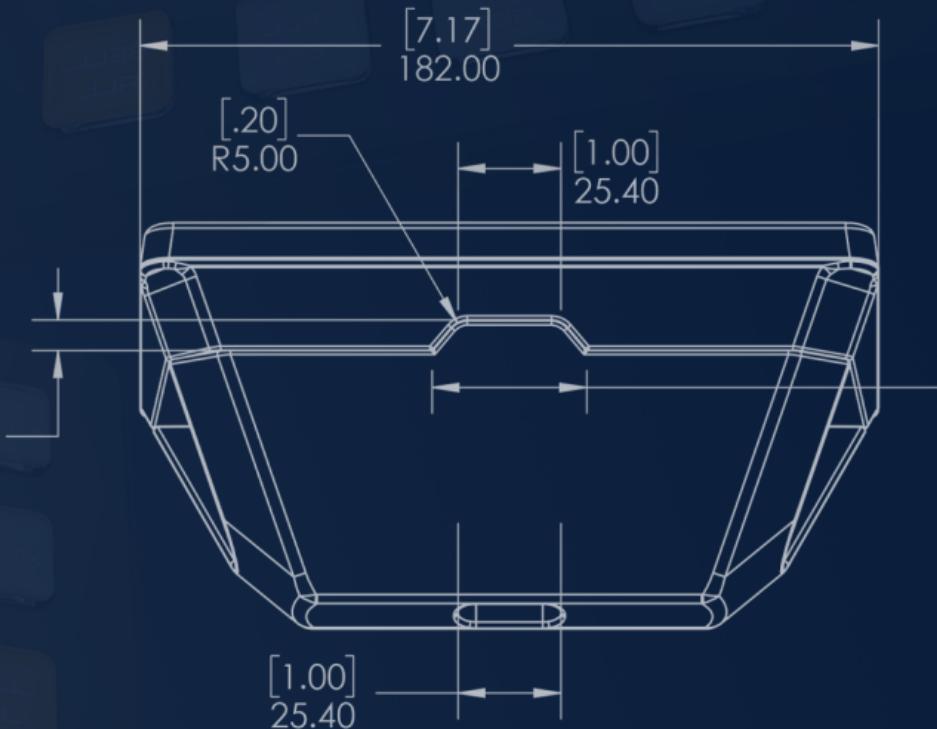

MetaDeck introduces a new wave of innovation to the crypto scene. As the first of its kind, it brings a level of functionality and user experience that has never been seen before. By combining instant execution, customizable controls, comprehensive analytics, and seamless integration, MetaDeck is set to transform the way traders interact with the crypto markets.

MetaDeck offers an unparalleled service that elevates the trading experience, providing traders with the tools and insights they need to succeed. Our mission is to create a product that not only meets but exceeds the expectations of the modern crypto trader, helping them to enjoy trading and excel in their endeavours.

Strategic Intentions

MetaDeck is dedicated to reshaping the cryptocurrency trading scene by creating a tool that will become vital for all crypto investors. Our objective is to produce a popular, must-have trading terminal that gives customers a competitive advantage in the market due to its speed, efficiency, and creative features.

Market Dominance

Our primary objective is to make MetaDeck the number one trading tool in the cryptocurrency space. We aim to achieve this by continuously enhancing the device's capabilities and ensuring it remains ahead of the competition that may appear after our inception.

Universal Appeal

MetaDeck is designed to cater to a broad spectrum of traders, from novices to seasoned professionals. By offering unparalleled functionality and user-friendliness, we intend to make MetaDeck an essential tool for anyone involved in crypto trading.

Relentless Improvement

We are dedicated to the ongoing enhancement of MetaDeck's speed and efficiency. By regularly updating the device and its software, we aim to keep our users at the forefront of trading technology, enabling them to respond to market changes faster than ever.

Enhanced MetaDeck Hub

The MetaDeck Hub is integral to our vision. We will continuously improve its features, ensuring it provides comprehensive support to all traders. This includes expanding its integration capabilities with more exchanges and trading bots, refining its analytics tools.

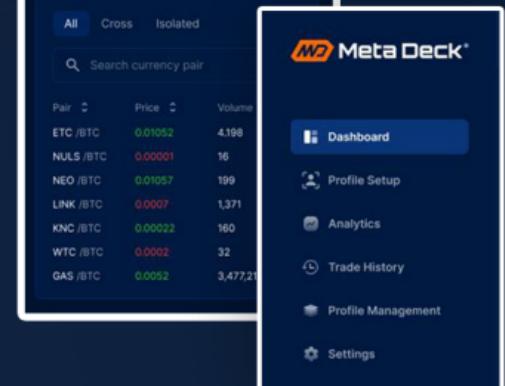

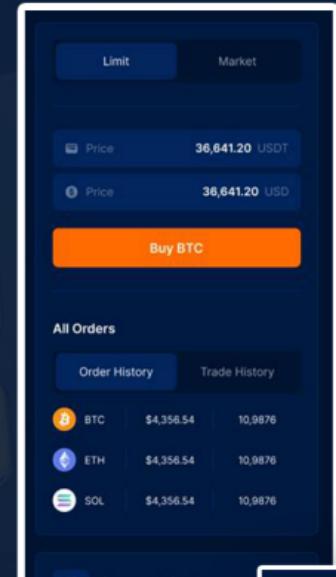

MetaDeck Hub

The MetaDeck Hub, our native software application that is compatible with the physical MetaDeck device. Allowing for seamless integration with a variety of major crypto exchanges and trading softwares. Our MetaDeck software application ensures compatibility where it counts. MetaDeck integrates with numerous high profile centralised exchanges, decentralised exchanges and decentralised trading bots.

Software Breakdown

MetaDeck Hub serves as the command center for your MetaDeck terminal, bridging the gap between physical interactions and digital trading efficiency. MetaDeck Hub is designed for both Mac OS and Windows operating systems, allowing traders to easily execute sophisticated strategies.

The software's user-friendly interface offers a smooth trading experience, whether you're a new trader or a seasoned professional.

Key Features

Profile Management:

Users can create and manage up to five different profiles, each tailored to specific trading strategies. Profiles can be customized and named (e.g., "degen wallet," "swing wallet") to reflect their unique purposes. Switching profiles is as simple as pressing the "change wallet" button on the MetaDeck terminal, with the software providing real-time alerts on profile changes.

Instant Trade Execution:

MetaDeck Hub enables instant trade execution through physical buttons on the MetaDeck terminal.

Each button corresponds to a specific trading action, ensuring quick and efficient responses to market changes.

CEX and DEX Integration

MetaDeck Hub supports seamless switching between centralized exchanges (CEX) and decentralized exchanges (DEX). Users can toggle between CEX and DEX trading modes, with corresponding adjustments to the interface and search functionalities.

API Key Management

Connecting to various exchanges is streamlined through the "Setup" tab. Users can link their CEX accounts by entering API keys and following guided setup processes. The software supports a variety of exchanges, each identifiable by their logos within the interface.

Trading Bot Integration

MetaDeck Hub supports integration with popular trading bots like Maestro and Banana Bot, enabling automated trading strategies. Users can configure and manage their bots directly from the software.
